Seating

Marics

FEATURES

A modern and sophisticated designer chair featuring continuous dynamic movement ideally suited for present-day active working environments.

The advanced ergonomics of the Marics make it a great option for conference rooms or task chair applications.

Overall size: 630W x 630D x 970-1045H

Seat height: 445-520H

Back: 470W x 530H

Seat: 490W x 450H

The weight balance mechanism helps you sit healthier by automatically adjusting to your posture throughout the day. As the chair adjusts to your posture the two-piece design helps to keep your legs in the correct, level position even when you recline.
