

Freedom Power

Freedom Power

FEATURES

Freedom is a portable charging system featuring 5 stackable power banks, each equipped with over a full-day of USB-C & A fast-charging for 2 devices.

Designed with enterprise in mind, Freedom easily delivers a day's charge for team members operating off-site or in collaborative environments without fixed outlets.

Upon returning to the stackable charging base, Freedom's chargers recharge wirelessly or individually via the USB-C port, ready for the next day.
