ViDesk App

VIDESK CONTROL

Connects to workstation via bluetooth

The ViDesk app puts users in direct communication with their Vidak sit-to-stand workstations and desk height adjustments directly from your mobile device.

With a feature that supports your workspace environment, it's simple to setup and easy to manage.

Control and adjust your desk height preference

Memory height settings for common use

Sedentary reminder and calorie consumption calculation based on your sitting and standing practice to let you know that it's time to get up from the desk and move around

History data on sitting or standing times

Ergonomic calculator for sitting and standing height suggestions based on user height and weight

Compatible with iOS and Android

Bluetooth dongle
+ QR Code
